

Make your own fairy garden!

Here's what you'll need:

- A shady place in the garden, or a pot with some soil
- A trowel
- A pair of gloves (optional)
- Small plants - succulents make great cuttings
- Rocks & pebbles - you can paint some to make your garden colourful
- Bits & pieces to decorate your fairy's home

How to create your fairy garden:

Step 1: Place your pot in the garden somewhere nice and shady. Start with the bigger items, placing them at the back.

Step 2: Add some smaller plants to give the fairies somewhere to hide.

Step 3: Use the stones to create a path to the house, and scatter some pebbles around the garden.

Step 4: Lastly add your fairies and other decorations
