

the better way to water

Types of Sprinklers

Small Lawns

Square Sprinkler

A sturdy metal design with a square spray pattern and up to 9m coverage.

Partner Sprinkler

A sturdy metal design with a full circle spray pattern and up to 10m coverage.

Handy Sprinkler

A lightweight plastic, full-circle sprinkler that provides even water coverage up to 8m.

Vari-Arc Spike Sprinkler

A versatile sprinkler with adjustable arc from 0° to 360°, and up to 5m coverage. Flow through spike to join multiple sprinklers and create a custom above ground sprinkler system.

Small - Medium Lawns

Click & Go - 3 Arm Head

This head delivers an impressive spray pattern but also offers effective coverage.

Adjustable arm ends change rotation and spray height. 4.5m radius.

Click & Go - Squarewave Head

Throws a square pattern instead of a traditional circle pattern to suit modern gardens. 9m radius.

Medium - Large Lawns

Impact Heads

Impact sprinklers have a full circle coverage, and water droplets can travel very far. Pope have a range of Impact Sprinklers in both metal and plastic to suit your needs.

Oscillating Sprinklers

Oscillating sprinklers have a large, rectangular pattern and can be adjusted to suit your lawn.

Easily change the size and shape of the spray using levers.

Travelling Sprinklers

The unique travelling sprinkler waters any shaped lawn on its own by moving along the hose.

Low Pressure

The Bobbler head and Rotoframe head are great options for low pressure conditions.

These heads are available in the Click & Go range to mix and match with the metal or plastic bases.

Click & Go Mix 'n Match

Configure and assemble your perfect sprinkler with ease using the Click & Go range.

Just decide what type of sprinkler head you require for your garden, then decide on a heavy duty or lightweight base.

Pope's Click & Go connection makes leak free assembly easy.
